Tritoma Pfitzeri	2	Orange & Red	Aug.-Oct.
Veronica spicata	2	Blue	July-Aug.

Plant perennials in a sunny spot in your garden. Dig the beds deep and apply well rotted manure; cover plants lightly in late fall.

Lovely gardens can be made of roses and hardy flowers combined. It is not necessary for them to be large to be attractive. They will give satisfaction all the year round.

Let us furnish you with a sketch and estimate.
